### COOKIES

#### What are they?

A cookie is a file that is downloaded to your PC, tablet, smartphone or other terminal device (hereinafter, the “Device”) when you access a web page or app.

Cookies make it possible to store and retrieve information on browsing habits or on the device used to access the page or app, generally in an anonymous form. Depending on the information they contain, they can also be used to detect whether the user has been recorded previously, so as to recognise him or her as a user or customer. The information relates to the number of pages visited, the language, the location from which the page or app is accessed, the number of new users, the frequency and repetition of visits, the duration of the visit, and the browser or device used to connect.

#### What cookies does this site use?

This site uses so-called “**Technical**” cookies for the sole purpose of transmitting a communication on an electronic network or, to the extent strictly necessary for the provider of a service explicitly requested by the user, in order to provide this service.

Cookies of this type are necessary for the proper functioning of certain areas of the site and include:

- **Session cookies**, which are also destroyed immediately after closing the browser;
- **Persistent cookies**, which are not destroyed immediately after closing the browser, but remain until a pre-set expiry date.

These cookies avoid the use of other computer techniques that could potentially be prejudicial to users’ browsing confidentiality and do not allow the acquisition of user identification data. In the absence of these cookies, the site or parts of it may not function properly. Therefore, they are always used, regardless of the user’s preferences.

### Cookies for the integration of third-party software products and functions

This type of cookie integrates functions developed by third parties within the pages of the site, such as icons and preferences expressed in social networks in order to share the content of the site or for the use of third-party software services (such as software to generate maps and other software that offers additional services). These cookies are sent by third-party domains and partner sites that offer their functions on the site pages.
