### Data, purpose and legal basis

The computer systems and programmes used to operate the site collect certain personal data, the transmission of which is implicit in the use of internet communication protocols (e.g. IP addresses or domain names of the computers used by users connecting to the site, URI – Uniform Resource Identifier – addresses of the resources requested, time of the request, method used to submit the request to the server, size of the file obtained in response, numerical code regarding the status of the response from the server – successful, error, etc. – and other parameters relating to the user’s operating system and computer environment). This constitutes the consent of the data subject, provided in accordance with this notice. In this case, consent to the processing of personal data is not a contractual obligation. The data subject has the option of providing personal data. However, if this data is not provided, no marketing activities can be carried out. The Data Controller hereby informs you that, in relation to the right to object to the processing of personal data for marketing purposes, this right may be exercised in part, e.g. by objecting to the sending of promotional communications by automated and/or digital means only, or, alternatively, by objecting to traditional communications.
